About This Degree Program

The Master of Science in Accounting program is designed for individuals with an undergraduate specialization in accounting or finance who wish to advance their education. Specifically, the program can benefit students preparing for the CPA exam and licensed CPAs seeking a credential that may enable them to teach accounting in higher education institutions.

The MSAC program requires successful completion of 30 semester-credit hours. The program includes elective courses that provide flexibility in customizing the program to meet professional and personal goals. Total program length varies based on the number of courses taken per eight-week session.

Knowledge and Skills

• Preparing students to apply current accounting theory and practice in a wide range of occupations.
• Providing students with additional academic work required to pursue professional licensure.
• Providing students who are licensed accountants with career-enhancement capabilities through an advanced study of accounting.
• Enabling students to analyze new and existing regulations and standards.
• Equipping students to conduct accounting research regarding technical, tax and audit issues.

Accreditation Matters

Keller's Master of Science in Accounting program has achieved voluntary specialized accounting accreditation from the Accreditation Council for Business Schools and Programs (ACBSP, www.acbsp.org), demonstrating that it has met standards of business education that promote teaching excellence.
